	GENERAL
	1. Strong sentiment in France and Germany for talks with USSR:
25X1	The French Foreign Ministry expects the latest Soviet note to reawaken a "widespread latent demand" in France that nothing be done on the EDC until after four-power talks, which it now considers "unavoidable." Foreign Ministry spokesmen believe that the EDC has suffered a very serious reverse in the past few days. They told American minister Achilles that
:	January is probably the most likely time for four-power talks, in view of the "crowded" December calendar. They prefer a Swiss site, and assert Berlin is entirely unacceptable.
	In the opinion of American officials in Bonn, Allied rejection of the Soviet note would provoke an adverse reaction in West Germany, where public opinion expects the Allies to grasp any opportunity for a four-power meeting to determine Soviet intentions on the German unity question.
	<u>Comment</u> : The debate just concluded in the French National Assembly marked the first time since the war that a government had been faced with defeat on a foreign policy issue. Although the government survived, France's whole participation in Western defense plans could now be threatened by an ostensibly sincere Soviet offer to neutralize Germany.
	The main hope for French EDC ratification rests on the fact that without the Popular Republicans, who are solidly behind EDC, no government can be formed in the present assembly.
	FAR EAST
	2. Rhee accepts NNRC nations as observers at Korean political conference:
25X1	President Rhee and his cabinet have accepted Ambassador Dean's proposal to include India, Sweden, Switzerland, Poland and Czechoslovakia,

WESTERN EUROPE 6. Spanish army minister reportedly hostile to base agreements: Franco may soon remove Army Minister Augustin Munoz Grandes from his post because of the latter's outspoken opposition to the American base agreements and his unpopularity in the army. Comment: Munoz Grandes, an influential and forceful commander feared by many subordinates, has been quoted as saying that, as former commander of the Spanish Blue Division which fought with the Nazis in Russia, he cannot wholeheartedly accept military collaboration with the Americans. Most Spanish army officers are reportedly in favor of the agreements. 25
